## 5 TIPS FOR INDEPENDENT ARTISTS

### 1. Create a budget

Do the research to consider all elements from Studio to Travel to Merch, etc.

### 2. Focus on Quality

Producing, Recording, Mixing and Mastering

### 3. Register Everything

This is how people count when your song is being played or streamed and ensure you get paid.

### 4. Work with DJs and Radio

Multiply your distribution through these taste masters. Supply the right info in the right format.

### 5. Create an Electronic Press Kit

People who will support you need to understand your story (bio, links to press) and your catalog (music, videos, etc.)
